THE IDEAL FUNCTION FOR EACH APPLICATION

Two intuitive push-buttons for comfortable control of devices or system functions in your smart home: The device can be used to switch light sources on or off, activate or deactivate the eco mode or to move shutters up or down.

FLAT DESIGN, MANY DIFFERENT POSSIBILITIES

Several functions can be controlled simultaneously by just one button press. For example, install the device next to your bed: at the touch of a button, you can switch the light off and activate the protection mode at the same time. This creates a secure feeling in the smart home even at night.

QUICK AND EASY INSTALLATION

Easy installation without any wiring effort thanks to battery operation and radio communication. The device can be placed where it is needed. It is ideal for mounting on walls, glass or furniture, for example, without the need to lay any power cables. Only the supplied adhesive strips are required for installation. Thanks to residue-free removal of the adhesive strips, the wall-mount remote control is suitable even for rented property.

Ultra-flat design

Thanks to its housing dimensions the device matches with many standard frames of other manufacturers
